The following students' names were selected today during our Pre-K Virtual Lottery Drawing. As mentioned during the drawing, each classroom has the capacity to hold 18 students; however, we only selected 16 per class today. This will give the teachers an opportunity to get to know their students better during the first two weeks of school. If there are no academic challenges noted; that classroom number will increase to 18. **All students selected below will be added into a classroom for the 2020-2021 academic school year.** However, they may not be in the order that is listed below. Your child’s homeroom teacher’s name will be provided to you this summer.
